*   The FREE Energy DEMO 2, now with included color *.gif pics,view with vpic *
* The world's first running free energy machine          or gws or vuimg etc.*
*       with a huge amount of excess energy                               *
*  This is the future of a clean nonpolluting energy production           *
*************************************************************************
```

Included in this second version of this archive are 2 color gif-pics , which show the Methernitha Testatika free energy machine. View it with Your favourite GIF-viewer. Additionaly we have included some more contact addresses and FAX and telephone numbers to contact us !

Believe or not, here it is !!!

The first really running perpetuum mobile coming from Switzerland, Europe.

This 2 demo-animations feature the so called : "TESTATIKA"-machine, which was developped over a 20 years Research period by a religious group called :

METHERNITHA.

This group lives in CH-3517 Linden, Switzerland. The inventor of this superb machine, Mr.Paul Baumann claims, its running principle was found by studying the lightning effects from nature.

And here are the facts :

* Testatika is an influence-type Wimhurst machine which runs on it's own energy, once started by counterclock revolving it's 2 dics by hand !!!

* Testatika not only runs on it' own energy, but produces also a huge amount of excess power, at least 3 KWATTS of power !!!
  (That is enough to supply a one person appartment with one machine !)

* The machine You see during this demo-animation is only about 70 cm wide, 40 cm deep and about 60 cm tall !

* It delivers DC-Voltage ranging from 270 til 320 Volts, only depending on the dryness of the air ! At this voltage it can supply at least 10 Amperes of DC-current !

* Testatika is not a perpetuum mobile, but an energy machine that "sucks" it's huge amount of "FREE" energy from the charged and ionized air particals. But there are still some technological tricks implemented to overcome the normal drag-resistance of a conventional Wimhurst machine, which is still the secret of the Methernitha group !!!

Running the demo-animations:

For viewing this 2 demos You have to have a VGA-card inside Your PC !!!

To start one of the two demo-animations of the TESTATIKA-machine, just type at the DOS-prompt:

```
  demo1  (RETURN)    or
  demo2  (RETURN)
```

During the running of the animation, adjust Your monitor to the right brightness, so You can see all the details !

Use the "+" and "-" keys on the keypad to regulate the displaying speed !

To end the demo press the "space"-key long time.

Demo1 features Mr. Paul Baumann lightning a 500 Watts bulb feeded by the connectores of the Testatika machine while it is running !!!

Demo2 shows a running Testatika machine in its whole size !!!

When will this technology be available for everyone ???

The Testatika machines, (there already exists also some smaller units which only deliver about 200-300 Watts) are not yet mass-production type models ! They are still laboratory prototype units, although they are build with a very good craftmansship !

Also the group Methernitha doesn't want to put such a revolutionary unit into our materialistic world, where only money still counts !
For to understand their basic living principles, I'll quote some sentences from a little book called:

WHAT IS METHERNITHA ?

Quoted:
"Methernitha is a rather large spiritual community. It cannot be compared with a sect or a community with a personal religious opinion.
Methernitha is founded "In the Name of God, the Almighty", and is based on the Eternal Principles of the Holy Scripture.

The word METHERNITHA is composed from various languages and stands as a Symbol for an own history. Each letter has a distinct meaning, which also depends on its position within the word, and thus the name METHERNITHA was formed.

Above all, the name signifies a certain Brotherhood of God, which was founded in the Heavenly Laws. Only he who practises God's Holy Commandments may learn to understand the fundamentals of Methernitha's history properly."

Methernitha's high aim

Methernitha was founded to allow a life in accordance with God's ancient Commandments for everyone seeking it. It's aim is to realize genuine humanity, which is the true sense of life and Aim of the Highest.
The community is formed of congenial people. In their own enterprises they earn the whole financial resources to make a living. In some sense all members are joint-owning partners of this selfsustaining co-operative. All members have equal rights and duties. Everybody finds his place according to his capabilities and knowledge. Through co-operative work Methernitha provides also material assistance to its members in time of distress, such as illness, old

age, and other difficulties.
There is no obligation for contributions. By self-motivation, everyone must be honestly and truly willing to serve and to help and, through sincere work, diligence and conscientiousness contribute all one can to the fruitful realization of the principle:

"ONE FOR ALL - ALL FOR ONE"

Alcohol, smokimg and all kinds of worldly amusements are strictly forbidden. Each member must seriously endeavour to really carry out God's Commandments in his daily life. The possibility to try this way of life with us is open to everyone.

With these explantions we have, in order to allow better understanding, unveiled a few details of Methernitha.
Those wanting to learn more about works and knowledge within Methernitha, are invited to get in contact with us. However, for anyone trying this for mere curiosity, Methernitha will remain but an unfathomable mystery and a strange country.

METHERNITHA
CH-3517 LINDEN,Switzerland
TEL.-Nr.: ++ 41 31 97 11 24

end of quote.

I personally have visited Methernitha and their living principle really works very well. Methernitha is like a big family.

The 2 demo-animations come from a video tape Methernitha sells for 180 Franken. This tape also shows the other little machines running and explains Methernitha's spiritual aims. The tape has a running length of about 40 minutes and is really worth looking at it! It is also available in VHS-NTSC and american language.
It also shows Methernitha's earlier research developments like huge wind generators, charging their big Battery-cell-station.

With the Testatika there is no fraud, hidden batteries or any other hidden energy source. It is really running !!!
They already have the technology of ten years ahead !!!
No more oil, no more pollution, no more atomic waste products, no more hunger in this world !
This is the machine the mankind has dreamed about for centuries. Now it has come true !!!

More information about the Methernitha machine is also available inside the german magazine RAUM & ZEIT, issue Nr.40, 8.Jahrgang from Ehlers Verlag, Daimlerstrasse 5, D-8029 Sauerbach, Germany.

More good news about NEW ENERGY TECHNOLOGY:

The Workshop of Decentral Energy Research e.V., West Berlin, Germany,

proudly presents a new circular process, which defies the 2 Law of Thermodynamics and converts heat energy on a 100 % level into mechanical work !

That means, that we have found a way to cool down a reservoir of heat a few degrees and to get mechanical work (or electrical energy converted with an electrical generator from the mechanical output) out of it !

That means, it is possible to build a self-running refrigerator or e.g. to build a new boat propelling machine which gets its energy by cooling down the seawater by a few degrees !!!

This invention was made by Bernhard Schaeffer, a Thermodynamics expert, who did'nt want to believe for 25 years that the 2 Law of Thermodynamics is true for all cases in nature.
So he began his own reasearch program which led him to the Austrian inventor and physician Dr.Ing.Rudolf Docezekal, who already had shown in 1940 that such a circular process exists, but his ideas were almost forgotten, if Bernhard Schaeffer wouldn't have found them again !!!

The NEW Circular Process which converts heat into 100 % mechanical energy
---

A mixture of Benzol- (C_6H_6) and water- (H_2O) steam is heated at 147 degrees celsius. If one measures now a pressure versus volume diagramm one will get this new results that 2 medium steam mixtures behave totally different than the normally examined only 1 medium steam.
So with this circular process using Benzol- and Water-Steam one can get a bigger clockwise rotating area than the counterclockwise area of the pressure versus volume diagramm.
That means, Bernhard Schaeffer has invented a heat-power machine with "no cold pole".
In this machine type the heat doesn't flow from the hot pole to the cold pole like in conventional heat-power motors (like in Stirling machines) but is simply converted to mechanical power output !!!
Because there is no cold pole with this new type of machine You can't also use the Carnot equation to calculate the efficiency of the circular process.
With this Benzol-Water circular process it's every time 100 % !!!

(This might sound a little to technical for some people:
If You are not a physics freak and haven't yet heard about the Laws of Thermo-dynamics then please copy this demo to a friend who studies physics and tell many people about it ! It's time to end the pollution on our planet !)

The Benzol-Water process is currently only working at 147 degrees Celsius.
But there are also other steam mixtures available which might work in another temperature range, like 0 to 20 degrees Celsius, which would make it possible to cool down the air on a hot summer day and to build a selfrunning air-conditioning which still produces electrical output-power !

What a great future of clean unpolluting energy production !

A working model of the Benzol-Water-steam energy-machine will be build soon, and presented to the public, when the computer aided maximization of the circular process will be done.

But one thing is clear: Paul Baumann and Bernhard Schaeffer are the coming winners of the Nobel price in Physics next year !

If You want more information about the Testatika then contact Methernitha directly at the above address or phone number. But remember:They are not interested in money or to sell their secret but they are interested in spiritual aims. They already have refused millions of dollars for their invention, so You wouldn't change their views !

If You want more information about the NEW Circular Process from Bernhard Schaeffer which converts Heat onto a 100% conversion process into mechanical energy, then call the :

Werkstatt fuer dezentrale Energieforschung e.V.
Pasewaldtstr. 7
D-1000 Berlin 37
Germany
Tel.: ++ 49 30 802 23 02 and ++49 30 801 40 26

If You decide to write to us, please include some international postage stamps, so we can send You some information material back with airmail delivery !!! A charity is welcome, because we get no money from the normal research funds and have to finance our research on our own !!!

The animations were done with the help of the superb FRAME-grabber from Ing.-Buero Fricke Electronics. If You want to have some info of this frame-grabber hardware, please contact Mr. Fricke personally, at Tel.: ++ 49 30 801 56 52. Don't call him about the new energy-machines !!!!

These demo-animations are PUBLIC DOMAIN !!!!

Please copy it and show it to all people who care about saving our earth and our children from environmental pollution ! Thanks a lot !

Berlin, the 20th of january 1991, best regards, Stefan Hartmann, member of Werkstatt fuer dezentrale Energieforschung e.V.

Please send only FAX-message response and leave Your FAX number to my fax:
Stefan Hartmann , FAX: ++ 49 30 344 92 79
(installed from the end of january 1991 on)

P.S.: Don't send email, we have no time to respond to it, write by "snail mail" please with return postage or by FAX ! Thanks.
